

Tips for Searching Products and Services

Note: Entries in the various search fields can be made in UPPER or lower case. For best search results, this website has been optimized for browsers with Internet Explorer 7 and above.

1. Search by Keyword—NEW

Enter in Vendor or Reseller name, Brand name, Product type or product subtype in the "Search by Keyword" field and click "Go."

Note: Potential matches are listed after you type first three letters.

2. Search by Contract Number—NEW

Enter all or part of the contract number (e.g., **dir-sdd-123**, **SDD-123** or **123**) in the "Search by Contract Number" field and click "Go."

Tip: Entries in this field must adhere to a specific contract number format. Avoid unhyphenated entries (e.g., sdd123, dir-sdd123 or DIR123).

3. Search by Product/Service—NEW

You may pick a Product type from the icons on the search page. The search results in a list of ALL prime contracts DIR holds for that product type. You can then filter your results based on product subtype, vendor/reseller, brand, and hub type.

4. Search by Commodity Code—NEW

Make a selection from the commodity class code drop down menu, and then filter your search results by item number. The search results in a list of all contracts associated with that class and item commodity code.

The screenshot shows the DIR Technology in Texas website interface. At the top, there is a navigation bar with links for Home, Co-op Contracts, TexasOnline, Security, DCS, CTS, IT Leadership, About DIR, and Contact Us. Below this is a banner for "ICT Cooperative Contracts" with the tagline "Increase Your Technology Buying Power today". The main content area is titled "Search Products & Services" and features a grid of product category icons: Computers, Hardware, Networking, Printers & Scanners, Services, Software, Telecommunications, Training & Services, and Video. To the right of the grid are two search input fields: "Search by Keyword" and "Search by Contract Number", both with "Go" buttons. Below the grid is a "Browse by IT Commodity Code" dropdown menu with a "Go" button. On the right side of the page, there is a "Quick Links" section with links to "DIRDirect Compare", "Buyer Alert Program", "Current Contracting Initiatives", and "DIR's Blanket Exemptions". At the bottom of the page, there are several footer links including "Capital Complex Directory", "Statewide Search", "Sponsored Sites", "Planned Procurement Schedule", "Document Library", "RAC Fraud Reporting", "Microland Security", "TexasOnline", "FAQs", "Site Policies", "Site Map", "Job Postings", and "Dept. of Information Resources" with contact information.

Quick Links connect you to other contracts information you might need—DIRect Compare, the Buyer Alert Program, Current Contracting Initiatives, and Blanket Exemptions.

How to Filter Search Results

Once you search by any of the four methods described above, a **search results grid** will provide you a list of all prime contracts DIR holds that matches your query.

The left navigation bar provides options to **filter your search results** in order to view them by Product Subtype, Vendor/Reseller, Brand, and HUB Type. If you search by Commodity Code, item numbers will be included in your filter.

Reminder:
All reseller contact information is listed on the corresponding contract detail page. Remember that only prime contracts display in the search results grid. Therefore, if you are looking for a reseller, conduct a keyword search or look for the company name in the Vendor/Resellers filter.

Product Type: Computers Results 1-42 of 42.

Product Sub-Type	Contract No.	Vendor Name	HUB Type
Computers - Desktop	DIR-SDD-590	M&A Technology, Inc.	Black/Male
